Intermediate, DEOCHAND College, Hajipur	2017 - 2019
High School, S.R.C.H.S. (+2), Rajapakar (Vaishali)	2016 - 2017

ACADEMIC PROJECTS

StudyTour

• It is basically a leaning platform that is based upon web-based project.

• Creating an e-Learning website using PHP as the backend and XAMPP server is an excellent choice for building an interactive and dynamic online learning platform.

Portfolio

In my portfolio website, HTML is used to create the structure of the different sections, such as headers,

paragraphs, images, and links. CSS is utilized to style and visually enhance these elements, applying colors,

fonts, margins, and other visual attributes.

CERTIFICATIONS

- JAVASCRIPT, SoloLearn
- PHP boot-camp, Lets Upgrade

EXTRA/CO-CURRICULAR ACTIVITIES

- Coordinated SRIJAN (Cultural Fest, GLA)
- Attended workshop on Cloud Computing.
